GENERAL PUBLICATION POLICIES

At least one author must be a member of The American Phytopathological Society, except that any subscribing institution outside the United States or Canada may have published, by a staff member, one paper (in English) per volume. A letter of transmittal, signed by an official of the foreign institution, should accompany such manuscripts.

Submission of manuscripts: Submit all new manuscripts to The American Phytopathological Society, Editorial Office, 1821 University Avenue, St. Paul, Minn. 55104. Do not submit new manuscripts to the Editor-in-Chief. Submission implies nonsubmission elsewhere and (if accepted) no publication elsewhere in the same form without consent.

Subject matter should fall into the following categories:

- 1) Original research on some phase of plant disease.
- 2) Review papers developing a new concept, hypothesis, theory, or other integration of plant pathology.
- 3) Phytopathological Notes: These are accounts of techniques, original research, or phytopathological history of general importance, but sufficiently brief (1-4 typed pages) as not to exceed 2 published pages. The editors will endeavor to publish notes as soon as possible after acceptance.

Page Charge: A charge of \$40 per published page will apply to all manuscripts submitted by authors except those submitted in response to invitation by the Society.

Separates: No free copies supplied. Reprints will be available at a nominal cost; quotation will be sent with proof.

For style details, follow: Author's Guide for Manuscript Preparation, *Phytopathology* 61:1-3, 1971, and *Style Manual for Biological Journals* (second edition). Amer. Inst. Biol. Sci., Washington, D.C., 117 p. Authors are urged to have one or more colleagues read the manuscript *critically* prior to submission.

Authors may write Society headquarters for more detailed information.
