

Acknowledgment of Reviewers

The success of PHYTOPATHOLOGY is dependent on the quality of manuscripts submitted by researchers and on the quality of reviews of the manuscripts. During the past year much effort was made to obtain reviews of manuscripts by the specialists most qualified to evaluate them. Consequently, in addition to members of the Editorial Board, those individuals listed below provided constructive critical reviews of one or more manuscripts. Their names are published here in grateful appreciation for their contribution toward improving PHYTOPATHOLOGY in its service to science.

- Abawi, G., NYS Experiment Station, Geneva, NY
